Create your QR Code

The LEXURE QR Code Generator is an extremely useful tool for creating QR codes that can be embedded onto your LEXURE card. QR codes are square barcodes that can be scanned by smartphones and other devices with a camera. QR codes can contain various types of information such as contact details, links, and text messages. With the LEXURE QR Code Generator, you can easily create QR codes that can be incorporated onto your LEXURE cards.

Steps to create QR Code using LEXURE QR Code Generator

1. Open the LEXURE QR Code Generator HTML File inside the qr-code-generator folder
yourserver/qr-code-generator/index.html
2. Enter your profile link and click on 'Create a QR Code' button.
3. Insert the downloaded code into your LEXURE card design.

Tips for Creating a QR Code

- Keep it simple and easy to scan, to ensure that it can be read efficiently by scanners.
- Use high-contrast colors to ensure that the code is easily readable.
- Test your QR code on multiple readers before finalizing it.
- Make sure that your code is large enough to be read easily, depending on the size of your LEXURE card.
- Embed the QR code in an easily accessible area of your LEXURE card.

Conclusion

Creating a QR code for your LEXURE card is simple, and with the LEXURE QR Code Generator, you can quickly produce codes that meet your needs. By including a QR code on your LEXURE card, you will be able to transmit information quickly, efficiently, and in a memorable way. Use the above process to create your QR code and embed it into your LEXURE card to gain an edge in your business.

Rule for using LEXURE card

Rule #1: To use the LEXURE card, simply visit the PARIS The Associations website and download the official .zip file.

Rule #2: Follow the instructions to print your card on high-quality cardstock paper, ensuring that the edges are completely trimmed.

Rule #3: Once your card is printed, store it in a safe place and use it whenever you need to effortlessly connect to the objects or people you care about.

Rule #4: To use the LEXURE card, simply scan the QR code on the back using your smartphone camera, and follow the prompts to connect to the designated link or social media profile.

Rule #5: Always remember to keep your LEXURE card up-to-date by regularly checking and updating your designated links or social media profiles. This ensures that your connections are always current and relevant.

Rule #6: The LEXURE card is personal and non-transferable. Only the card owner should use it to avoid confusion or unauthorized access to personal or confidential information.

Rule #7: Ensure that the designated links and social media profiles connected to your LEXURE card are appropriate for public viewing. Avoid linking to any content that is offensive, discriminatory or violates any laws or regulations.

Rule #8: Use your LEXURE card responsibly and ethically. Do not use it for spamming or soliciting purposes or to mislead or deceive others.

Rule #9: In case of loss or theft of your LEXURE card, promptly report it to the relevant authorities and take necessary steps to secure your personal information and online profiles.

Rule #10: By using the LEXURE card, you agree to the terms and conditions stated on the PARIS The Associations website, including any updates or changes. Failure to comply with these rules and guidelines may result in the suspension or revocation of the card privileges.

How to report to the relevant authorities

Step 1: Present your problem with your LEXURE card.

Step 2: Explain to them what a LEXURE card is and who made it

Step 3: Provide them with the reason why you need to report it as lost or stolen. This is important because, unlike a traditional ID card, a LEXURE card can be used to connect to various objects and people, making it a potential security risk should it fall into the hands of unscrupulous individuals.

Step 4: Inform the relevant authorities of any sensitive information that you may have stored on the card, such as bank account information, personal contacts, or other confidential data.

Step 5: Request that the authorities cancel the card and issue a replacement. Be sure to follow their instructions on how to report the loss and how to obtain a new card.

Step 6: Finally, take steps to safeguard your LEXURE card by storing it securely, avoiding unnecessary risks, and being vigilant about its use. With proper care and attention, you can enjoy the many benefits of the LEXURE card while protecting yourself from potential harm.

Important things to use LEXURE card

#1. Introduce your LEXURE Card with the relevant authorities

If you are a business owner or an individual who wants to use LEXURE Cards for professional purposes, it's important to introduce your card to relevant authorities. This will help you establish credibility and legitimacy in the eyes of your target audience. Be sure to provide a brief overview of your card, its features, and how it can benefit others.

#2. Customize your LEXURE Card to reflect your brand identity

One of the important things to use LEXURE Cards is to customize your card with your brand identity. This ensures that your card aligns with your business's visual identity and creates a professional look and feel. You can include your brand logo, colors, and other design elements that reflect your brand values.

#3. Include all necessary information

When creating a LEXURE Card, it's essential to include all relevant information to ensure that people understand who you are and how to contact you. Include your name, job title, phone number, email address, website, and social media handles. This information will help people easily connect with you, which is the primary goal of the LEXURE Card.

#4. Use the card to connect with people

Once you have your LEXURE Card ready, it's time to start using it to connect with people. Whether it's in a professional setting or a casual social gathering, share your card with people you meet to make a lasting impression. The card allows you to connect people to your website, social media, and other important information, making it easy for them to stay in touch with you.

#5. Keep your LEXURE Card updated

Another crucial thing to use LEXURE Cards is to keep them updated regularly. Update your contact information and other details as necessary to keep the card relevant and accurate. This will ensure that people can quickly and easily get in touch with you when they need your services or want to connect with you. Keeping your LEXURE Card updated is also an excellent way to show people that you are professional and trustworthy.

Manual for using the HTML Profile Card file in LEXURE

LEXURE is an innovative card that connects you with the people and objects that matter to you effortlessly. It features a unique utility that uses an HTML Profile Card file to store user information securely. In this manual, we will guide you through the process of editing this file and uploading it to a hosting provider to generate a QR code for your LEXURE card.

Step 1: Open the HTML file in a text editor

The HTML Profile Card file is included, you will need to edit it to include your information. To do this, open the file in a text editor such as Notepad or Notepad++. Do not use a word processor like Microsoft Word, as it may add extra formatting that could break the file.

Step 3: Edit the HTML file

Once you have opened the file in a text editor, you can edit the HTML to add your information. The file contains comments that guide you through the process of adding your details. You can customize the following fields:

- Name
- Job title
- Profile picture URL - Social media links

Here is an example of how to customize the "Name" field:

...

```
<div class="name">Your Name Here</div>
<div class="about">Your Bio Here</div> <div class="social-icons">
<a href="#" class="fb"><i class="fab fa-facebook-f"></i></a> <a href="#" class="twitter"><i class="fab fa-twitter"></i></a> <a href="#" class="insta"><i class="fab fa-instagram"></i></a> <a href="#" class="yt"><i class="fab fa-youtube"></i></a>
</div>''
```

Replace "Your Name Here" with your actual name, "Your Bio Here" with your bio, "#" with your social media link and save the file when you are done editing.

Step 4: Upload the HTML file to a hosting provider

Once you have edited the file, you need to upload it to a hosting provider. A hosting provider is an online service that stores your file and makes it accessible through a URL. There are many hosting providers available, and some of them are free. Some popular options include GitHub, Dropbox, and Google Drive.

This work is shared under the terms of a Creative Commons Attribution - Non-Commercial 4.0 International license.

Manual for using the HTML Profile Card file in LEXURE

To upload the file, you need to create an account with a hosting provider and follow their instructions for uploading files. Make sure to upload the file to a public folder, as you will need to access it using a URL.

Step 5: Generate your QR code

Once you have uploaded the HTML file and made it publicly accessible, you can generate a QR code using a QR code generator. There are many free QR code generators available online, such as QR Code Monkey, QR Stuff, and QR Code Generator. Simply enter the URL of your hosted file, and the generator will generate a QR code that you can download and print.

Step 6: Insert your QR code into your LEXURE card

The final step is to insert your QR code into your LEXURE card. You can print your QR code on a sticker and attach it to your card, or you can print the QR code directly on your card. To do this, you can use a design software such as Adobe Photoshop or GIMP. Simply open the LEXURE card template and insert the QR code image into the designated area.

Conclusion

Using the HTML Profile Card file is a secure and easy way to store and share your information with others. By following these steps, you can customize your HTML file, upload it to a hosting provider, and generate a QR code to insert into your LEXURE card. We hope this manual helps you get the most out of your LEXURE card and stay connectedected with the people and objects that matter to you.
